The listing of claims will replace all prior versions, and listings, of claims

in the application:

Listing of Claims:

Claim 1. (Currently Amended) A method of call control for

continuous streams of data in packet switched networks including at least two

local area networks that are in communication with one another across a

connecting network, the method comprising the steps of:

a) determining an acceptable packet loss rate for a call which is

to be established between two of the local area networks;

b) comparing actual packet loss rate to the acceptable packet

loss rate; and

c) dropping the call if the actual packet loss rate is greater than

the acceptable packet loss rate; [[.]]

wherein, prior to actually dropping a call, said method includes the

further step of changing priority of the transmission of the continuous

stream of data when the actual packet loss rate is not acceptable, and

repeating steps a) to c).

Attorney Docket No. 038665.56185US

Claim 2. (Currently Amended) A method according to claim 1, wherein step c) includes determining for how long a period the actual packet loss rate has been happening and utilizing that period in deciding whether to drop the call.

Claim 3. (Previously Presented) A method according to claim 2, further comprising the step of playing a recorded announcement when the call is to be dropped.

Claim 4. (Currently Amended) A method according to claim 2, further including the step of changing the increasing priority of the transmission of the continuous stream of data when the actual packet loss rate is not acceptable and repeating steps a) to c).

Claim 5. (Previously Presented) A method according to claim 3, further including the steps of storing data relating to dropped calls for future use.

Claim 6. (Previously Presented) A method according to claim 1, further including the step of playing a recorded announcement when the call is to be dropped.

Claim 7. (Cancelled)
